Conductor Bar Systems

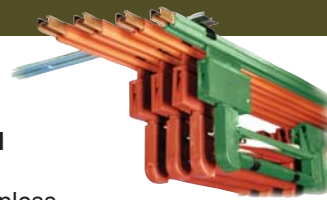

Safe-Lec 2 - The proven standard for crane electrification

- Finger-safe, insulated bar - made in the U.S.A - **U.L. Listed**
- Reliable "V-Contact" for accurate shoe tracking
- 60 to 400 amps; galvanized steel, copper, or aluminum/stainless

Hevi-Bar II - For demanding mill and heavy industry environments.

- 500 to 2000 amp bar; optional **Dura-Coat** corrosion protection
- A variety of covers available for outdoor use and high-heat environments

Conductix manufactures the original **Insul-8 "Figure 8" Bar System** and is a worldwide supplier of **Transit Conductor Rail**.

Cable Festoon Systems

Conductix builds reliable and efficient festoon systems for all applications - from light duty crane hoists - all the way up to "Class F" mill duty and port cranes. Our product range will handle flat and round cables and cable packages:

- Stretch wire kits for very light duty
- Standard and Heavy Duty C-Track
- Standard and Heavy Duty Square Bar for dusty environments and curved systems
- Medium Duty I-Beam systems - in a variety of capacities
- Heavy Duty I-Beam systems - up to 500 feet per minute and large cable packages

Push Button Pendants and Radio Remote Controls

Conductix high quality, industrial-duty pendants and radio remote controls provide reliable crane and equipment control:

- Ergonomically designed for single-hand operation - reduced operator fatigue
- Easy-to-use Pistol Grip versions are available
- Offered in durable high-impact NEMA4 and 4X enclosures - from 2 to 24 buttons
- Radio remote controls feature advanced digital security and easy programmability

Cable and Hose Reels

Conductix builds a complete series of standard and customized Power Reels™. They are used for manual operation (drop lights, receptacle boxes, welding) and automatic operation to electrify moving machinery. Our reels feature:

- Rugged, modular steel construction - for demanding industrial applications
- Safe, containerized, life-time lubricated spring motors for long life
- Industrial-strength designs for hand lamps and receptacles.
- Multi-spring motor designs up to 42" in diameter for large multi-conductor cables

Whatever the requirement, Conductix has what you need. We also offer a full line of **hose reels, hand rewind reels, and torque reels** for retractor/balancer applications.

Motor Driven Reels

Conductix builds more motorized reels than any other company. We offer a variety of drive systems to suit your application:

- Magnetic coupler drive - long life permanent magnets
- Variable frequency drive
- Direct drive (manually controlled)

We match the spool design to the application - monospiral, bulk-wrap, or level wind.

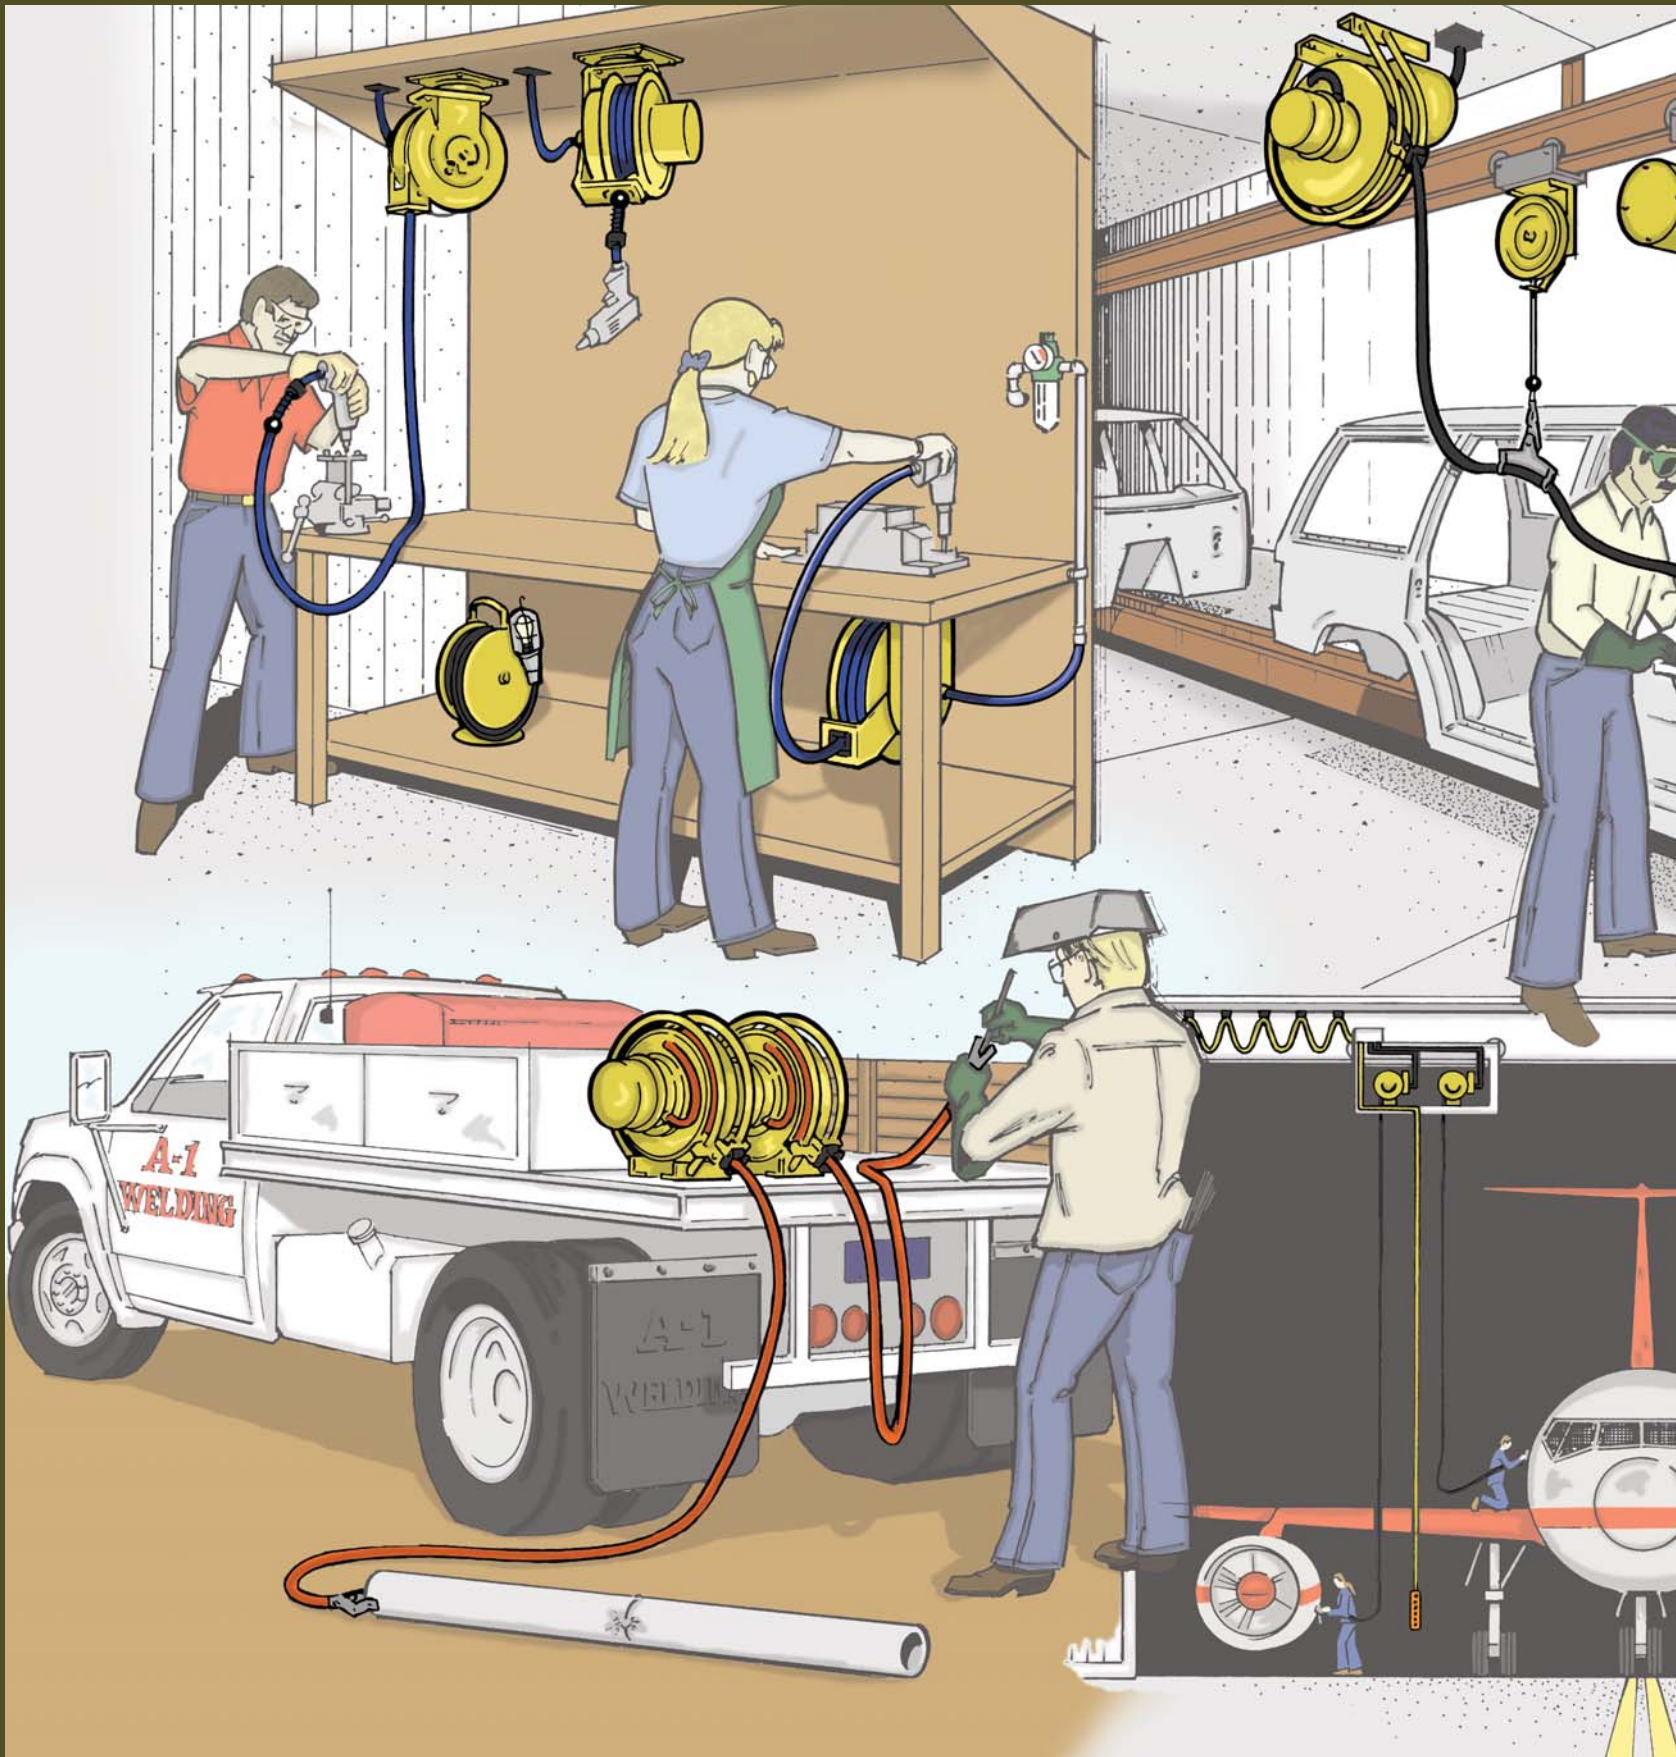

Slip Ring Assemblies

Conductix builds rugged, industrial-grade slip rings to transfer power and data to rotating machines. Conductix slip rings power thousands of machines worldwide.

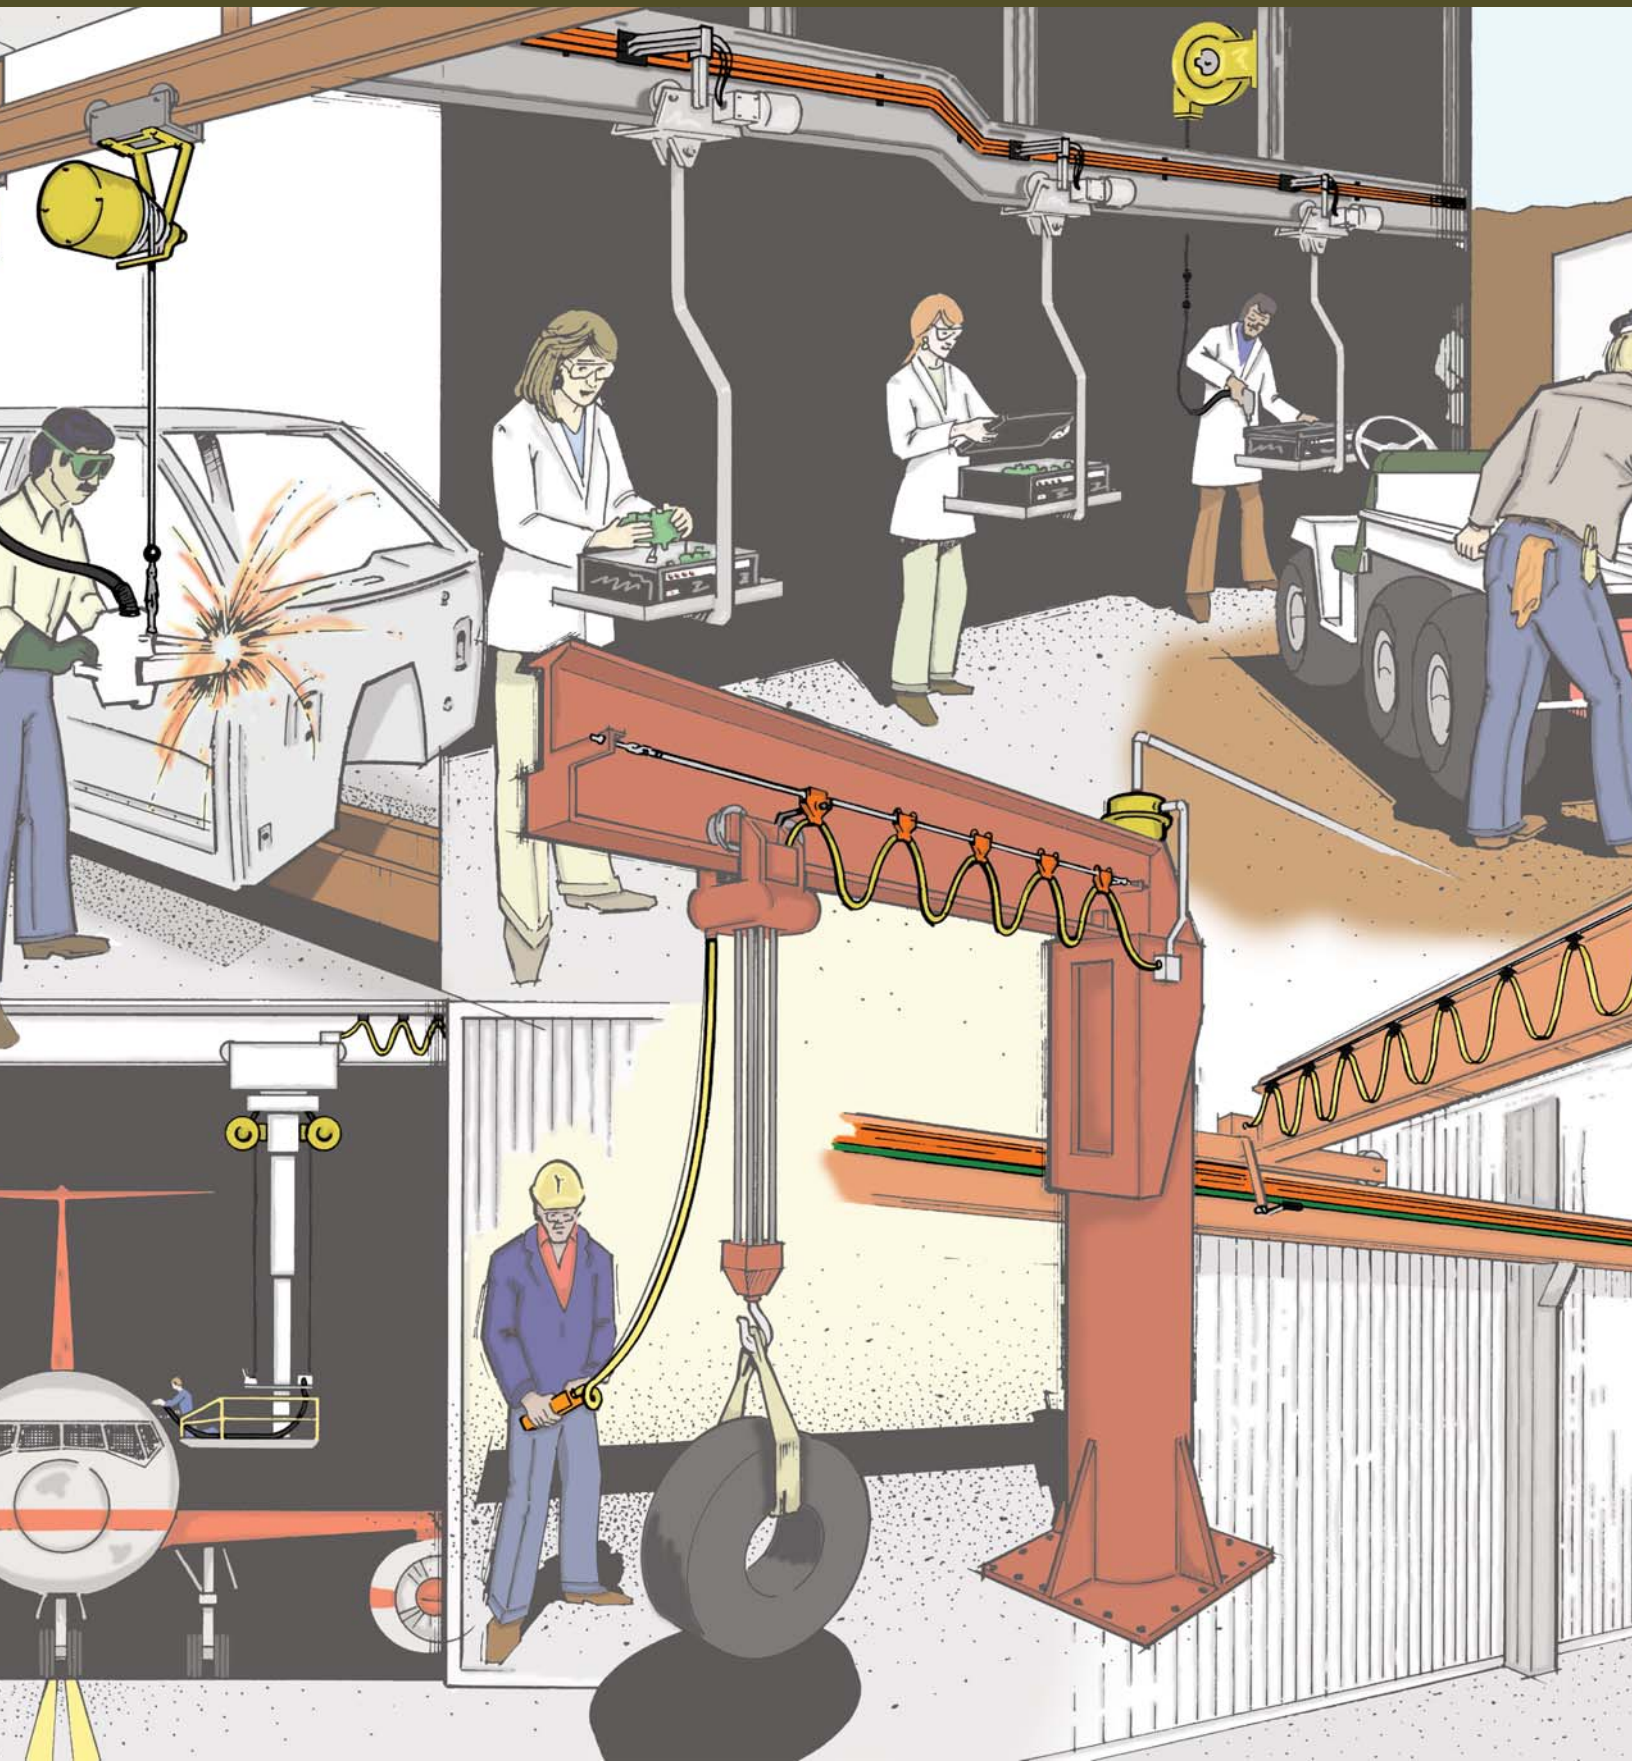

- Bore sizes from 1.5" to 18" and more
- Ampacities from signal level to 2000 amps and more
- Available in a variety of enclosures, including U.L. listed hazardous duty enclosures
- 60 years experience in custom slip ring design and manufacture
